Ten marks.

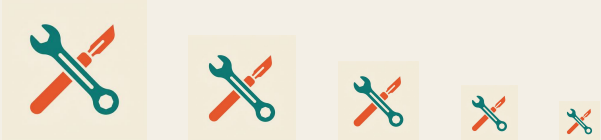

The shortlist, ten marks strong: the crossing, the stethoscope, the continuous impleme the M, the twin-drum heartbeat, the two single-serpent rods, and the wild three — the finding, the iris, the mechanism. Every bloodline we have. One file, one decision left.

Wrench + scalpel

The original crossing.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

Stethoscope + wrench

Natural stethoscope: eartips, Y-join, one long supple tube.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

Continuous implement

One tool: stethoscope at one end, wrench at the other. The bell every later mark borrowed.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

The M — two tools (v1)

Stethoscope left, wrench right.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

V4B

The heartbeat — twin drums

Bell and socket as a matched pair of machined parts, in the same perspective.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

CAD-7

Single serpent — Asclepius, one ink

The rod of Asclepius, told with a wrench and one honest stethoscope.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

CAD-8

Single serpent — the vermillion stetho

The same rod, the creature in vermillion — teal tool, coral serpent.

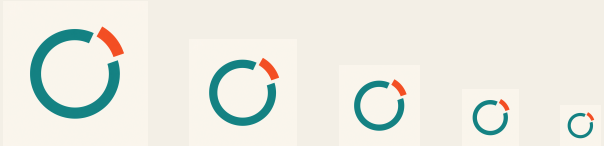

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

The finding

A perfect ring, one segment displaced — the anomaly you can't unsee.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

W-2

The iris

An aperture that is also an eye — machined blades, organic leaflets, one dot.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX

The mechanism

A double helix drawn as a compression spring, set on ink.

SIZE LADDER — 54 / 40 / 30 / 21 / 15 PX
